Jasper's Corner

WELCOME to the musical experience that is Jasper's Corner; a Connecticut based indie rock band. We have been performing and perfecting our sound for more than a decade. Playing through out New England, JC has also performed in NYC & the Caribbean Islands.

Critics and fans have compared our musical style to such greats as The Dave Matthews Band, Bare Naked Ladies, Rusted Root and O|A|R. We have taken our influences, blended them into our own diverse, high energy sound that gets the audience singing, dancing and swaying to the music.

JC originals are our experiences put to music, then presented to the audience for their interpretation and enjoyment. Our unique use of percussion and rhythm sets the beat, employing styles and instruments not normally heard in a rock band (when was the last time you heard a djembe?). Acoustic and electric bass' work together to provide a great foundation. Combining 6 & 12 string acoustic guitars with an occasional mandolin or slide with smooth, powerful vocals, perfect timing and maybe a harmonica brings our art & passion to life.

Welcome to Jasper's Corner...

We know you will enjoy your stay.

“Going to see Jasper's Corner is like hanging out and partying with old friends. The only difference is these guys can sing and perform (unlike your old pals).”
